 **ITALIA
SERVIZI**
A Landbell Group Company

 **Landbell
Group**

Landbell Group is a leader in environmental and chemical compliance

We support producers in meeting their Extended Producer Responsibility (EPR) obligations by managing compliance, take-back, and recycling processes. Through our consulting and software solutions, we ensure full traceability across the entire supply chain, while our expanding international presence allows us to operate and manage Producer Responsibility Organizations (PROs) worldwide.

Compliance

Landbell Group ensures international compliance for WEEE, batteries, packaging, and textiles, managing PROs across Europe, including the key German packaging system.

Consulting

Through Landbell Consulting and H2 Compliance, the Group provides global expertise in environmental and chemical regulations, offering tailored consulting and software solutions.

Software

Landbell Software develops digital tools to support and optimize circular economy management.

Complementary Services

With Landbell DS Entsorgung, the Group offers waste management, recycling, and secondary raw material solutions across Europe and beyond.

Consorzio ERP Italia

is a leading not for profit compliance scheme active in both WEEE and Batteries compliance market with more than **1.400 members**. It is part of the European Recycling Platform and the Landbell Group.

It is active since 2006 and – as a committed advocate of the necessity of a coordination among compliance schemes – founded the WEEE Coordination Centre (CDCRAEE) and the Batteries Coordination Centre (CDCNPA) and created a dedicated Consortia for **Textile waste in 2023**.

It is duly registered to the **WEEE and Batteries National Registers** and fully compliant with the requirements set by the local legislation:

- Standard by-laws approved by the Ministry of the Environment;
- Certified Quality and Environmental Management Systems;
- Board of Auditors and Supervisory Board in place;
- Certified financial statement;
- Organization System as per Legislative Decree No. 231 in place and assessed by an accredited 3rd party.

Compliance

Main compliance services delivered to our members:

- B2C and B2B WEEE
- Portable Batteries
- Industrial Accumulators and Car Batteries
- Packaging
