

STRENGTHENING AN INNOVATIVE SUSTAINABLE ECONOMY

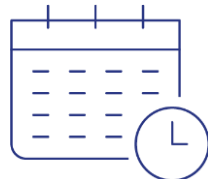

GREENSMARTMED

Green and Resilient European Excellence Network for Smart MED SMEs

GREENSMARTMED project, by integrating and upgrading methodologies of the Interreg MED GREENOMED and finMED projects and leveraging the Interreg MED Green Growth Community, will deliver a transferable methodology and toolkit aimed at enhancing transregional cooperation among quadruple helix stakeholders to create a European community exploiting innovation in green manufacturing, contributing to regional Smart Specialization Strategies implementation and continuous adaptation, with a value chain perspective and specific focus on enabling SMEs to turn sustainability challenges into opportunities.
